## 30 MILLION RELIEF **BILL FALLS 7 SHORT** ON SECOND BILL

Downstate Factions Defeat Key Measure—Cook Co. Favors Bonds

Governor Horner's proposed \$30,-000,000 bond lasue went down to dofeat a second time yesterday in the honce of representatives at Springfield when the relief measure fell short seven votes of the 102 required for its passage.

This senate blii, designated as No. 1 and the key measure in a program of six bills embodying the hond issue scheme, in the first test of House sentiment last week received 80 votes with 45 against.

Downstate Democrats, counted on to put over the measure, were reported in revelt because of the governor's refusal to recegnize their patronage recommendations, are said to responsible for the defeat of the measure. All Cook county members veted solidly for the bill yesterday. There remains little doubt in the minds of chserving taxpayers as to FIREMEN SPONSOR the demeries of the Horner \$30,000. 000 state bond issue as against the alternative non-partisan plan for raising money on a "pay-as-you- go" basis, devised under Republican leadership.

It has also become more evident that any delay in enecting relief measures will lie squarely in the lap of the governor because of what legislators say is his dictatorial and contemptuous attitude toward them. week that while the governor has the November 11, the Ways and Means evidence in a chank of an old eim been made upon him.

Disaster; Causes Heavy Loss of Lives

What type of disaster occurs most frequently in the United States? This question is answered frem the relief annals of the American Red Cross which show over a period. of years that the ternade, or cyclone as it is called in some sections, is the most frequent and claims a heavy toll of ille, it sweeps simost with out warning, and in the terrific whirlyool of its Derce winds it de-

stroys all in its path. The Red Cress gave reilef in 44 ternadoes in eighteen states last year. The tornsdees killed 326 persons, injured 2,755 and the Red Cress gave aid to 21,738 who were hemeless, injured or otherwise victime of the storms.

#### H. S. Professor's Child Has Narrow Escape From Death

Runs Behind Car as Father. Is Backing from Lake Street Garage

Little David Cex, 16-months-old sen of Pref. and Mrs. Themas Cox, nurrowly escaped death yesterday afterneen when a wheel of the car being backed out of the garage by Mr. Cox passed over the head of the child.

Dr. R. D. Williams was called, and ordered that the baby be rushed to the Victory Memorial hoapital for examination. The baby was found net to be seriously injured, and had recovered sufficiently to be brought home late last night.

Mr. and Mrs. Cox live in the flat low or soap, and the streets cluttered on the aidewalk, waiting for Mr. Cox

Dr. Williams stated that the sandy drive prevented a serious accident. Prof. Cox is coach and blology instructor at the Antioch Township High School.

### Tornado Is Most Frequent BURGLARS LOOT SUMMER COTTAGES AT LAKE CATHERINE

Case Is Being Investigated by Deputy Sheriff, John DeSmidt

No leading clue as to the identity of the burglars looting seven cottages in Morley's Lake Catherine subdiv'n. last week has yet been made known, although an investigation is being carried on by Deputy Sheriff John DeSmidt.

The cottages entered were the Jehnson, Clancey, Huey, Young, Kenworth, and Merley cottages, belonging to Chicagoans for the most part, and the Oasis Club, in which evidences were found that the buriglars

had celebrated with a drinking party. Upon finding in two of the cottages rugs rolled up and ready to be taken away, Do Smidt called in Depnty Sheriffs Gene Palmieri and Ar-

thur Grieve to guard the places. Entry into the cettages in every case was gained by hresking a window and then releasing the locks on the doors from the incide.

#### Democratic Club Is Jubilant When Chase Is Reinstated

The reinstatement of Paul Chase as a state highway policemen called for extra celebration at the Democratic dance held at St. Peter's hall Saturday night. A congratulatory, speech was made by Frank Mastne. s a member of their club.

During his speech Mr. Mastne read a letter from County Chairman John O'Keefe written to Mastne as acting committeeman, in which he stated that the reinstatement of Paul Chase was a very decisive victory for the cause of clean politics, and that he had been in Springfield on four occasions, the reinstatement of Mr.

Chase being uppermost in his mind. The next event to be sponsored by the Democratic Club will be a card party to be held in the near future. A joint meeting with the Fox Lake Democratic Club is being contem-

Early in 1934 a dinner will be staged at which Judge Benjamin P. Epstein, on the Circuit Court bench in Chicago, will be the principal speaker. Judge Epstein le noted as a speaker, and as being one of the most rigorous of the younger judges.

#### **ARSON TRIAL** AGAINST ANTIOCH YOUTHS IS CALLED

The trial of Charles Pester, Lake Villa, Robert Wilson and Edwin Hucker, Antioch, charged with the burning of the George V. Cordingly hotel at Lake Villa last sprng, was cailed yesterday in the Lake County Circuit Court at Waukegan.

Eight jurors were selected yesterday, and it is expected that the remaining four will be secured today. after which the hearing of evidence will begin. It is understood that the youths will repudiate confessions which they are said to have made

Charles Polze, the fourth member of the band, did not go on trial as he was granted a severance from the case sgainst the trio. The four also are under indictment on a charge of burglarizing the Moose Hail and King's Drug store.

#### MRS. J. PACINI IS SLIGHTLY HURT IN CAR COLLISION

Mrs. John Pacini received a sprained back Monday, when a car crashed into the car in which she and her son Norbert were riding, just north of Union Grove, Wisconsin. According to Norbert, he and his mother were on their way to Milwaukee to visit Mr. Pacini who has been confined to a hospital there for about four weeks. Norhert had just ahead of it was forced to retard his speed to avoid hitting a hay-wagon just ahead. The car behind him was thus forced to crash into him, amain-

LIQUOR REGULATION-A NATIONAL PROBLEM

On the fifth of December conventions will meet amendment to the Constitution of the United States, less balance-sheets. in accordance with the will of the electorate. The

at the earliest, liquor will be sold under the control of cost of government loomed like Everest out of the State laws alone, Federal jurisdiction being limited to plains of Tibet. taxation and the protecting of states which vote dry. as yet there aren't any. States which want saloons to curtail or damage necessary governmental functions and aunt, Mr. and Mrs. Robert Talt,

It was because of this that John D. Rockefeller, Junior, hired R. B. Fosdick, lawyer, and A. L. Scott, industrial engineer, to make a sweeping study of ways and means to control the liquor traffic. Their report corporate prosperity. That must not be forgotten. recently released, is long, thorough, and dispassionate. Theme song of the report is that the greatest of all liquor problems is private profit, and that it should be eliminated. Each state should form an Alcohol Control Authority with retail outlets of its own-a la the system in vogue in the Canadian provinces-for hard liquor. It would fix prices, and all profits go to the State. Beer and wine could be sold in hotels, restaurants, grocery stores, etc., under regulation of the authority. It would have the authority to establish dry zones within the state when local sentiment was favor-

The licensing system—which has been persuasively pushed of late-is severely criticized, inasmuch as it still leaves the problem of prufit, becomes involved with politics, tends to encourage, rather than to discourage, overdrinking.

On the burning subject of liquor taxes, the report recommends that the tax rate should vary with a proper relation. drink's alcoholic content, its price, and its "social

#### WE CAN'T HAVE BOTH

The greatest obstacle business is struggling against now is taxation. And taxation, as a result, is the principal barrier in the way of achieving the fullest success for the recovery plans that are now in operation. No business can spend money it hasn't got. No passing away on Sunday of Mrs. in the states of Pennsylvania, Ohio, and Utah to go having a hard time bringing in enough revenue to meet youngest daughter of Mr. and Mrs.

Andrew Booth at her lowe in Too through the formal motions of ratifying the 21st existing demands. No business can expand with profit-

To regain governmental economy, it is not necessary Tuesday until Friday with her uncle can have them so far Nevada is the single Common-it simply means that the waste, inefficiency and duwealth which definitely regards the old brass rail with plication of effort that is actually harmful to legitimate favor. In the great majority of the states, no definite governmental work, must be eliminated. In some plan has been decided upon, and the machinery of regulation is inept or lacking entirely, a matter which must saved millions as in the post office department, which is breaking even for the first time in many years. But the work has barely begun.

Reasonable taxation is the friend of recovery, of employment and higher wage scales, and individual and

#### THE PRESIDENT SPEAKS

The President speaks—the country responds. We've been used to that lately, and it happened again in Mr. Roosevelt's optimistic radio talk of October 22. Gist of the speech was that the recovery plans are succeeding. The president reviewed progress made in employment under the N. R. A. the achievements in the field of price-upping and the stabilization, the agricultural adjustment work, which has won fewer victories than was hoped. He spoke also on chiseling of the kind that raises the cost of a shirt \$1.00 because of a 4-cent cotton processing tax-reiterated his opposition

Most important of his utterances perhaps, was his definite statement that there would be no effort at Mrs. George Patrick, Saturdsy evedollar stabilization now. Price stabilization is to come ning. first-this, in his opinion, putting horse and cart in the

value." The tax on beer would be not more than 10 securities, strengthening of prices and markets of all evening. Next day's reaction to the speech was a boom in scheck family of Lake Villa Tuesday

## WILMOT H. S. BE NOVEMBER 10

THURSDAY, NOVEMBER 2, 1988

Main Address to Be Given by State Supt. of Schools, John Callahan

The dedication program of the recently completed Wilmot high school will be held Friday evening, Nov. 10. The building will be open to public inspection from 1:00 to 7:45 p. m. Friday, after which a thirty-minute concert, beginning at 7:45, will be given in the gymnasium by the Wisconsin Gae and Electric Co. Band. The formal program to follow has

been arranged as follows: Invocation; address of welcome by a member of the school board; in treduction to the architecture of the building, by Marlin M. Schnurr, principal; history of the school from the beginning until 1913 by Richard D. Swenson of Monmouth, Oregon, formerly editor of the Wilmot Agitator: history from 1913 to the present by Co. Supt. Ihlenfeldt; vocal selections by the combined high school and grade school choruses; dedicatorial address by State Superintendent of Schools, John Callahan; benediction. The Union Free High School and Wilmot grades moved into the new school building Saturday and regular class work was held for the first lime on Monday.

The grade rooms are a separate unit entirely from the high school, with a southern entrance and exposure. Miss Virginia Rowe of Sparts, principal, presides over the Intermediate room, and Miss Grace Besies, Kenosha, the Primary department, Each room is beautifully equipped with the latest in school furnishings. Special tables, sand boxes were provided for the primary department. There is excellent lighting throughout the entire building. board space and cork board for builetin boards. The grades have their own corridors and lavatories.

Besides the graded school on the main floor, the high echool has an entrance to a high school departme on the east. Pupils will enter a expedition will lecture at the gymclosed foyer before reaching the main nasium en "The Human Side of the corrider. Opposite this double en Byrd Expedition." trance is a trophy case decorated with a plaque symbolical of athletics.

Each corridor in both schools is Fire escapes have been placed at strategic points. An electric cleck governs the bell system and instime, clocks will be placed in each rooms pictures taken while at the Antarctic Cable for radio was installed, if ever and most interesting to everyone at desired. An efficient fire alarm system was installed. The entire build his way to the South Pole with a new ing le of fireproof construction even to the flooring of asphalt tile.

Principal M. M. Schnurr's agricultural room is on this fleor. Another and a small fee will be charged. room, with an accountically treated ceiling will be devoted to the music department under Miss Gladys Bufton, of Sliver Lake. The third room on this floor, the history department, will be in charge of Miss Alice Kuenzli, of Waukesha.

The high school lavatories and a janitor's supply room which contains a paper chute from the janitor's room on the second floor, shelves end a sink, complete the list of rooms on the ground floor.

The second floor is devoted entirely to the bigh school department. The main assembly which covers M. Schnurr addressed the author the main assembly which covers and gave the aim and object of the Smile width of the southern ex-Seasoned facilities in the rear of school year. It is hoped that they

## 10 EVERYONE who pays a bill for electricity and gas

The reasonableness of electric and gas rates affects the pocketbook of every citizen, directly or indirectly. That you may understand the situation, there is published below the statement made October 24th before the Illinois Commerce Commission, at a formal rate hearing, by James Simpson, chairman of Commonwealth Edison Company, The Peoples Gas Light and Coke Company, and Public Service Company of Northern Illinois.

Mr. Chairman and Gentlemen of the

Illinois Commerce Commission Before you begin formal hearings in the citation for a reduction in rates by the Public Service Company of Northern Illinois, I ask your indulgence to present a statement. What I will say also applies to the Commonwealth Edison Company and The Pooples Gas Light and Coke Company. Reversing the time-honored order of procedure, I am preficing my remarks with what would, under most circumstances, be the conclusion of them.

That is a request—a frank, open, straight-forward request—that this body postpone hearings looking to a further downward revision of rates by the three companies mentioned, until such time as those companies and your honorable body may know more about the future than it is possible to know today.

To Avoid Increased Rates The companies are making every effort to absorb the entraordinary and unforeseen expenses recently added to their burdens, hoping that they will not be forced to petition this Commission for relief through increased rates.

There are four major items involved in the man-

agement of these public utilities, two having to do with their revenues and two with their expenses. Let me briefly mention them:

1. The first is rates. This matter is either lo your hands or in the hands of the courts. The companies may initiate rates. But in the final analysis the companies have no control of the rates, their very lifeblood. I do not contend that they should have such final control, but I do contend that rates should be fair, and this means adequate to provide a reasonable return upon the capital inrested for the service of the public.

2. The second item, affecting the gross revenue of the companies, is the quantity of electricity and gas consumed by their customers. Over this, broadly speaking, the companies have no control. The extent of the customer's use of these services is a matter wholly of his own choice or needs. The company must sell but the customer is not required to buy. The depression and hard times have taken their toll from these compaaies and only recently has there been any en-couraging upward trend. Consumption is still far below normal.

3. The third item is our normal daily operating ex-penses which may be spoken of as restrellable expense. It is the only one of the four major. items over which the companies have a large measure of control. Their control over this item is limited by the necessity of protecting the high sendered of the service tendered. From intimate and personal knowledge of our business I know that the three companies have done a good job in reducing this part of their operating expenses.

Uncentrollable Expenses Mount

Uncentrollable Expenses Means

4 The fourth and last item is the assessfulable portion of the companies, expenses. It is in part composed of state, county and local real estate and personal property taxes, state franchise taxes, state capital stock tax, federal capital stock tax, federal capital stock tax, federal tax of 3 per cent on sale of electricity, manicipal franchise tax, federal income tax, and various other governmental chaeges.

Escalety the Department of Finance of the Sate of Illinois has attempted to apply the 2 per cent Illinois Retailers Occupational Inx-the no-called lates and the control of the services is not retail sale of manifold property as which the last retail sale of manifold property as which the last is specifically directed. Consequently, we are contenting this tax in the court. May I add that stable utilities represent the only business that does not have the privilege of passing this tax on to the consequent.

past ten months the three companies have had new and increased taxes levied or proposed to be levied against them, some going back to the years 1931 and 1932, amounting to more than \$14,500,000, of which the companies had no knowledge a year ago. A portion of these incressed taxes is chargeable to the years 1931 and 1932 because of the confused tax situation in Cook County. The earnings state-ments of the three companies for these two years reflect these increased taxes. Certain of the new taxes such as the federal tax of 3 per cent on the sale of electricity and one or two other new forms of taxanion above mentioned, have been imposed under laws passed during the current yest and therefore, have been effective during only a part of the year 1933. The full effect of these new and increased taxes has not yet been felt. If all these additional taxes be continued the estimated increase in taxes will

amount to \$7,867,000 per year.

Further down in this list of uncontrollable expenses is the cost of investigations made by this Commission imposed within the past aix months by amendments to our State Law. Even more recently there has been added to this list a substantial incresse in expenses due to the codes under the

National Recovery Act.

One large and unylelding element in the list is interest on outstanding bonded debts, representing capital expenditures necessarily incurred for the rendering of service to the public.

Net Revenue Drops \$18,500,000

I am not going to burden this presentation with too many figures for this Commission is thoroughly familiar with them, but I do wish to being out one significant figure resulting from the startling trends in the three uncontrollable items to which I have just referred. It la a comparison of combined operating figures for the three companies for the year 1933 with the more normal year of 1930. The reduction in the estimated gross earnings from operations of the three companies for 1933 on the one hand, end the increases in taxes and other uncontrollable items on the other hand, result in a reduction of income in excess of \$25,000,000.

Partially offsetting this decrease in income, the controllable expenses will be some \$6,500,000 less in 1933 then they were in 1930. Therefore, the combined net operating income of these three companies for 1933, after the payment of interest and before the payment of dividends, will be at least \$18,500,000 leas than in 1930. This graphically tells the story of the past three yests.

Dividends and Stockbolders

This condition quite recently made necessary the suspension of dividends by The Peoples Gas Light and Coke Company on its \$67,000,000 of ourstanding capital stock. Since 1931, dividends on the \$162,000,000 of oursending capital stock of Commonwealth Edison Company have been cut in half, and dividends on the \$63,000,000 of oursending common stock of Public Service Company of Northern Illinois have been reduced to one-fourth of their former level.

Gentlemen, in the face of a sub-normal demand for electrity and gas, resulting in a sub-normal revenue, in the face of increasing uncontrollable expenses, and in the face of rapidly rising costs which will be accelerated if we have any form of inflation.

inflation or reflation, you are asking these com-panies further to reduce their rates.

Bossomic realities must be faced. Any further rate reductions or increases in taxes are impossible at this time without seriously affecting these three

Companies.

Nothing is to be gained by seeking to attribute the present situation to anything that may have docurred in the past. For past history, neither the present members of the Communion and the present present of the companies are in any measure

veiling, it is our task to look forward, not backward. Utilities' Credit Essential to Community This community, embrscing the City of Chicago and the surrounding area, is dependent in a large measure for its prosperity and growth upon these

three companies. Any injury to them affecting their

credit or their service inevitably means great damage to the community at large. The maintenance of the credit of these instituwith reasonable rates. Whether present rates with improved conditions will be adequate for the restoration of the earnings, remains to be seen. But any reduction in rates at

this time is unthinkable. The consumer is interested in the maintenance of adequate rates because that is the only way to insure good service.

Illinois Residents Vitally Interested

While every consideration must and should be given to our customers, our stockholders numberion over 100,000—more than 90,000 of whom reside in Illinois—must not be lost aight of Illinois is vitally interested in the successful operation of these three companies for in its confines reside over 70,000 bondholders, 90,000 stockholders, 15,400 employes, and upwards of 65,000 other persons gainfully employed in ways dependent upon the activities of these companies. An ultra conservative family multiplier of 3 applied to this army of 240,000 persons leads one to the conclusion that one person out of every 10 in the Save has a direct person out of every 10 in the State has a direct

Interest in the prosperity of these three companies.

The Public Utility Law of this State was designed to protect the investor as well as the consumerthe one who renders the service as well as the one who enjoys it. The question is fat from a one-sided one. It is by no means true that a reduction in rates would injuse a few and sid many. A rate reduction not warranted by prevailing conditions would bring about as great an injustice to the consumes as to the investor.

Our responsibilities as managers of these companies, and we take these responsibilities with all seriousness, are to render to our customers the best possible service at the lowest possible rates, to give to our stockholders a reasonable return on their investment, and to pay our employes a fair living wage. These things we can do only with fair and

lodustry in this country cannot survive unless Government permits it to earn a reasonable-and I use that word advisedly a reasonable return on its invested capital.

Commission's Broad Interest

I appreciate the grave responsibility resting upon the shoulders of the members of the Illinois Commerce Commission, appointed by the Governor of this State to administer the Public Utility Law. I am aware of the pressure that is constantly pur upon persons in your position so force reductions in rates. This pressure is always more severe in time of economic stress like the pressur.

Your responsibility under the Public Utility Lay of severe severe in the person of the force of the consumer one of the free person of the responsibility to be instant of the consumer one of the free person before the feel to the feel to the feel to the person of the perso

CHRISTIAN SCIENCE CHURCHES

The Golden Text was, "The Lord knoweth how to deliver the godly out. of temptations, and to reserve the unjust unto the day of Judgment to be punished" (II Peter 2:9).

Among the citations which comprised the Lesson-Sermon was the following from the lilble: "Be sober, be vigliant; because your adversary, the devil, as a roaring lion, walketh sbout, seeking whom he may devour; Whom resist standinst la the faith, knowing that the same affiletions are accomplished in your brethren that are in the world. But the God of all grace, who hath called us unto his eternal glory by Christ Jesus, after that ye have auffered a while, make you perfect, stablish, strengthen, settle you" (I Peter 5: S-10).

The Lesana Sermon also lacluded the following passages from the Christian Science textbook, "Science and Health with Key to the Serlptures," by Mary Haker, Eddy: "Itesist evil-error of every sort-and it will free from you" (p. 400).

### SKY RIDING—OLD STYLE AND NEW

Sky-ride at A Contury of Progress Exposition. (Inset) The famous old ferris wheel of the

In the ventureseme '90s, America, young and old, thrilled at the daring of the Ferris Wheel which was the center of attraction at the Chicago World's Fair held in the closing months of 1893

In the bolder days of 1933 at A Century of Progress Exposition, also in Chicago, it was a ride again which excited the interest of the visitors and formed probably the greatest single attraction among the thousands offered. This time it was the Skyride, combining ewiftly-moving elevators in two 800-foot towers with smoothly-gliding steel gondelse, traveling from tower to tower 200 feet in the air, both affording an airpiane view of the Exposition and the city of Chicago. And, as in the case of the Ferris Wheel, the Sky-ride, despite dire predictions to the contrary was an entertainment anc-

One of the gractest engineer-ing feets of its time, the Farrie wheel provided the nitimate in exciting experiences to hundreds of visitors to the old Werld's Fair ... Its huge revolving wheel, 250 feet in diameter, on which were suspended 28 cars, was In spits of discouragement, how-

World's Fair. leoked upon with awe by those ever, George Malcoim, Vice Pres-who came to the exposition. One ident of the Olis Elevator Comwho came to the exposition. Ons historian, writing about the wonder, records the fact that "its glgantle structure was brilliantly
ilghted at night with 3,000 electric light bulba!". This is about
the number of light incompany

the number of lights now used on a fair-sized advertising sign Although the Ferris wheel today would be considered far; less than breath-taking, it was without doubt the outstanding attraction at the Columbian Fair, and hundreds of thousands of people paid fifty cents to ride it, each ride consisting of two complete revelations. Indeed, so successfol was it that its original cost of \$350,000 had been paid by admissions several weeks before the Fair closed

Dwarfing the Ferris wheel hy comparison, however, is the Sky-ride and its ancress. In height the Sky-ride towers are 600 feet, cempared with the Ferris wheel's 250 In cost, the Sky-ride reonired an investment of \$1,800.000 almost five times as much as the Ferrie wheel.

Because of this tremendous cost, many critics were emphatic in their opinions that the Mryride would be a financial faffura. pany, one of the hackers of the project went shead with plane

for its construction.
That his belief in the Sky-ride was correct is evident from a recent report on the operation of this attraction.

"Frem the 12th of October fignres," anys the statement, "it is evident that the attendance for the Sky-ride) will pass the 2:500 .-000 mark by the end of the month. This is certainly one of the mest auccessful, if net the most successful attraction ever staged. Mr. Malcolm offers another in-

teresting observation. At the tep of each of the towers the Otla Elevator Company had arranged the machinery room of the high rise elevators so that visitors could see just what makes a modera elevator run. More than a million persons paid admission to see this exhibit of machinery. This feature ef the Sky-ride, it

is stated, was built primarily as an educational exhibit; it was expected that there would be a loss on the project, but that if such were incurred it would be repaid in the awakaned public interest in vertical transportation.

#### Wankegan where he was called to Twenty-eight Rural serve on the examining hoard. Mr. and Mrs. George Kuhaupt and

daughter Vlola, returned last week from a two weeks' auto trip through Art McGreal left Monday morning

for Kenosha to report to the draft board for immediate duty.

J. C. James and W. H. Osmond were Milwaukee visitors Monday.

Mr. and Mrs. George Bacon rerelatives at Ringwood.

Miss Hazel White of Chicago spent ents. Her sister, Verna, accompanied her home to spend the week.

Miss Blanche Stickles left Monday a position.

Hermy Bock is again able to be out, Oak Grove. after a hard tussle with the "flu" but as yet has not returned to his duties at the post office,

Miss Lucite Mathews who teaches the Torry school near Kenosha is spending her vacation with home ist:

#### How to Eat for Health and Beauty

In this unusual photograph of the f mous Bennett hoir and eyes, Connie proves that her beauty can stand the closest scrutiny,

Summer wind and sun are hard on hair as well as skin, so take time to massage nourishing oils into your scalp as well as your face. And neurlah your scalp and hair from the inside, too, by taking an ahundance of such healthful foods as fresh milk, frulta and vegetables and eggs, hecause trying to have gleaming, lustrous halr, by means of shampoos, scalp treatments and waves alone, is a losing struggle as anyone who has noticed how the hearity of her balr varies with the condition of her general health, can teatify.

has been ill for two weeks, remains how she pays for her choice is the about the same.

Dr. H. E. Jamison is a patient at St. Joseph's Hospital, Chicago. tertained rolutives from Richland Center, Wis., from Fridny until Sunday.

Miss Alice Bauman is ill with rhoumatle tover. Bernice Bnuman is substituting for her at Pomeroy School near Lake Zurlch.

The young people enjoyed a hard time secial at the Hall on Friday eve-

Tho P. T. A. will hold its regular meeting at the school on Tuesday evening, Nov. 7th.

The bi-weekly Friday Afterneon Bridge Club met at the home of Mrs. Oscar Neahous last woek. Mrs. W. R. Cartano had high score.

#### "No Second Spring" \$20,000 Prize Nevel, Is Simple Love Tale

It remains usually for those who have discovered how tragic life really is to be able to write about it with calm acceptance. Miss Belth has a quality of serenity in this book which is almost unique in a first novel.

"No Second Spring" is a love story of utter simplicity . . . the story of the gentle Allison McGregor, wife of the Rev. Hamish McGregor, paster to a wild flock in the Hebrides in children, seven after the fateful year Mrs. Nason Sibley, Mrs. Ben la lavited to join the Red Cross and aid

With exquisite tenderness the au- III.

thor tells of the timed eagorness Allison to stir an answering love in hor husband, passionate only in his need of her and in his mission to preach God to mankind, a stone man who preschod to his 6 year old daughter the fires of hell merely because, terrifled, she could not tell him that sho had been sent to summon

him to supper. Heroine Really Has Character The terror of the wild country, like something evil clutching at humans, is in the pages of the beok, but always so calmly set down that lis terrors are made vital instead of purely decorative. Into that emotional bleakness there comes, not suddenly, but slowly with inevitability, love to Allison. What she does about it and

but lovely, tale. Allison has "character" in the old inshloned sense of the word.

"No Second Spring" has within it the whole moral fragrance, allke sweet and hitter, of the ninetecoth. century. Miss Belth has produced a book which in its healty and simplicity and its epiritual essence of its period is a work of art.

This book may he rented from MarlAnne's Rental Library, Antibeh.

#### Methodist Women to Hold Mass Meeting

A mass meeting will be held for women on Friday, November 10, at the First Methodist church, 130 N Utien Street, Wankegan, Illinois, from 2:00 until 4:00 p. m. ### **RED CROSS CLOTHES** THE NATION'S NEEDY

Flour, Bread, Ciothing Reach Into More Than Five Million Homes of Jobiess

The greatest task ever undertaken hy a relief agency in the history of private charity is drawing to a close with the final distribution of cotton clething to more than five million: families by the American Red Cross. At the direction of the Congress, he ginning eightsen months ago, the Red Cross underlook to convert the wheat and cotton surpluses of the Farm Beard into foed and clething for the unemployed and needy, in the consequent operation, this relief agency entered upon a conimercial enterprise greater than any single commercial firm has over undertaken in the same

period of time. In the ensuing months the Red Cross converted 85,000,000 hushels of wheat late flour and bread and gave it to 5,803,000 familles. The distribution was through 3,700 Red Cross chapters and hundreds of other charltable agencles. During the sovere nerthwestern drought of 1931 the Red Cress slso gave wheat in the form of food for livestock to 184,188 families.

The clothing - dresses, underwear, overalls, jumpers, swenters and stocklugs for men, women and children, and even blankets and comforters-was distributed to 5,405,410 familles. More than 54,000,000 ready-made garments; and 92,000,000 yards of cetten cloth were given to the needy. This clothing came from 844,000 bales of cotton.

The wheat distribution was concluded le June, 1933, and final distribution of cetten clothing is occurring in the fall menths.

In handling these tasks voted to it by Congress, the Red Cross will expend frem Its own treasury \$735,000. At the same time the organization carried on its regular program of disaster relief; of service to the veterans of all our wars; of educational and welfare work through the Junior Red Cross: of health education and public health unraing and of life saving and first aid. Funds for this work come from the membership rell call the Red Cross chapters conduct from Armistics Day to Thanksgiving Day, when every one

Seven hundred thousand woman volunleers under the Red Cross banner sewed for the needy last year and many thousands still are making cetion garments for their Red Cross

The Red Cross has 3,701 chapters and 10,000 branches of chapters. Thus It can be mobilized nationwide in a great relief task within 24 hours.

### RED CROSS RELIEF AIDS DISTRESSED IN 120 DISASTERS

Ade giving telephone number only positively not accepted unless edver-Help Given in Fires, Floods, Earthtieer has an established credit, at this quake and Epidemics Part of Year's Task

> The American Red Cress has reached into the homes of six million families in the past year with unemployment and disaeter relief, Chairman Jehn Barto Payne announced.

"As the year closed the erganization continued in readiness to serve in the forthcemisg winter at the point of greatest need and to adjust its eervice to meet the calls of the emergency of unemployment and dienster," Chairman

Payne stated. In a year of greatest economic distress in the nation's history, in which the Red Cross ship discharged a relief task in distributing flour and clothing to distressed families in all hut eix of the nation's 3,098 countles, the organisation also was called leto action in 120 disasters, of which 95 were within the

borders of the United States. Earthquake, floods, hurricanes, fires and other cataclysms visited death and destruction upon the lives and homes of thousands of people. Red Cress etstistics showed that in the 120 disasters almost a thousand lives were lest, 148,-340 homes were destroyed or damaged, 13,275 persons were injured, and Red Cross relief was given to 452,879 indi-

In glving ald in these disasters, in its unemployment relief sod in handling the distribution of government wheat and cotton, the Red Cross expended from its national treasury the sum of

During one period of twelve weeks, 46 dissaters occurred in 23 states. Red Cross dleaster workers were hard pressed in meeting all of these needs occurring at once, but everywhere misery was promptly relleved.

Support of the Red Cross work is through its annual roll call, conducted by chapters in the period from Armistice Day to Thankagiving Day, Novamber 11 to November, 30, Every citizen who joins the Red Cross as a member Address Box A, Forest Park, Ill. (13pl alds in carrying relief to dissater victims sod in other Red Cross servicer, such as preservation of life, child welfare through the Junior Red Cross, and direct service for the public health.

#### Prepared to Save Lives

One of the most valuable services given to the American public by the Red Oross is through its Life Saving and First Aid courses. Virtually all of the life guards at beaches and pools in the nation are Red Cross life savers. Nearly every industry in America supports the First Ald work of the Red Cross because it annually saves lives of thousands of injured persons. These courses are taught by Rod Cross experts in both lines. Last year 66,354 certificates were issued to persons completing the First Ald course and 78,795 cartificates for completing Life Saving

#### War Veterans' Problems

Not since the period of the World War has the Red Cross faced a greater problem in handling the claims of World War and other vetorans. Due to the changes in the regulations coverlug veteraus' claims, chapters all over the nation have been crowded with veleran applicants for relief and fer service in preparing appeals. During last year Red Cress home service workers in 3,268 chapters dealt with the preblems of 411,11 l'ex-service men or their families. The chapters also sided 7,346 men still in the regular army, navy and marine corps.

#### An Army of Children

The membership in the Junior Red Cross last year was 6,629,866 boys and girls in schools, private, public and parechial. They enjoyed volunteer work in hospitals and for orphans, the aged and erippled, and also sided their achoolfellews by providing attention for their eyes, purchasing their glasses, and giving many other types of service to them. The Juniors aid their school werk hy carrying on correspondence and the exchange of portfolios with school children in other nations.

#### Toll of the Earthquake

When a severe earthquake killed 95 persons; injured 4,911 and destroyed several thousand homes in Southern California last March, the Red Cross was first upon the ground with emergency relief. it required more than three menths for the Red Cross to restore the needy to a self-austaining basis. The organization expended a rellef fund of \$411,000.

#### Serves Under Five Presidents

John Barton Payne, a retired judge and lawyer of international reputation, la serving his twelfth year as chairman of the American Red Cross. Ills services is without pay, and his appointment is by the President of the United States. He has serred by appointment in high public effice ander five presidents.
